Bringing Everyone to Sahome!

The spirit of Sahome unfolds within each of us as we appreciate each life to be of infinite value. Sahome is that idiom we use, which speaks of love and compassion for one another.

Sahome is sanctity of heart, goodness of heart, and mutual gentle *helpfulness* within the heart. Sahome is character building because it directs us toward mutual love, mutual honor and mutual mercy. Sahome increases our humanity with a healthy socialization that works for everyone's best good and benefit. Sahome becomes a practice in fulfilling life's fullness for all. By creating a social climate that gives everyone a way forward, Sahome honors everyone no matter one's race, ethnicity, religion or creed. Sahome unites us all together as a *common denominator* towards the common good through the pursuit of the greater good *for* all. Sahome is our collective pursuit towards moral maturity. Sahome celebrates the Divine Nature within every person and undergirds it.

The object of our hope is the fullest realization of human potential. We wish everyone to fulfill the measure of their creation and have joy therein. Therein lies all best tomorrows on the radiant-level of life. Mastering this radiance-level of life is what Sahome is all about. As we improve together, we prosper and flourish in a commiseration which buoys us up for each new challenge and leads us ever closer to expressing our fullest potential to receive happiness. Building upon that combined virtue of nurturing kindness and love, found potentially within every human heart, we can ride into the sunset together forever.

We invite everyone everywhere to join with us *all* in Sahome ~
Coming together to move forward together!

Today we need to reimagine America and it's future as paramount to leading the community of nations to a prosperous, healthy, safe future, respecting all and their diversity with flexibility. Few things of this magnitude 'self-order' in this world without many a hard earned victories along the way initiated by the individual good deeds we can do.

Because we want every goodness to be realized in our lives and in the lives of those around us, we contribute our part by obliging the good intentions, good deeds, good habits, and good heartedness within us all. We are all co-workers in creating and sustaining goodness. If we have departed from having that stream of consciousness, then we are called upon, by the grace of the nobleness of spirit we were fostered to express, to gain in striving, resourcefulness, readiness, resilience so we revitalize, reconcile, replenish and reimagine our future for the reemergence of goodness.

We Learn by Developing Great Relationships

Each Life is of Infinite Value!

We are to compliment the value each of us represents to others. The more we give hope, joy, praise, honor, helpfulness, reassurance and delight, unto others, the more we like and value ourselves, and the more we qualify ourselves to be valuable to all of our Kindred Kind around us. This growth of spirit, this generosity of disposition is a craft, like any other craft, whether fixing a car, repairing a faucet, developing some skill and expertise to create a product or render a service, generosity and the outreach of goodness is a craft, is a skill which we can develop. It requires the best decision making process of a lifetime. It requires hope in the future, compassion with passion for others well-being, willingness to protect others and willingness to serve their vital interests to fulfill the power of full personhood in each life

We want to honor the delight and joy in everyone realizing their optimal purpose for their life. It is about choosing awareness. It comes from our enterprise, ambition, observation and initiative. It relies upon the accentuation for mutual respect and generosity.

Everyone's support in this crucial effort to lift and serve our fellow being in goodness is greatly appreciated. *We give thanks for you! Thank you for all the good you do!*

We wish everyone great joy in...

The Four Gains of The Gift of Sahome

Passion with compassion: Thereby we belong to one another in the moment. May we live the virtue, caring and kind consideration to be found in each moment, to build a better life for everyone.

Protection: By building energy around one another's best good and benefit our outlook of home and good intentions can apply the spirit of generosity, security and sanctity, to guard others with our powers, so that all goodness can prevail and our potential can be realized.

Power of Personhood: With the uniqueness of each and everyone held hallowed, the diversity and severalness of humanity will add joy to the tapestry of human aspiration. We will help it to be realized and responded to, with radiance, to best determine our future's fullness.

Purpose: Each life has a magnificent mission to fulfill and is of infinite value and worth. May we support the unfolding of the creative forces in each one of us to compliment mortality so that all of us can receive gentleness, satisfaction, and goodwill.

Five Critical Adaptations From Sahome

1. We are best able to fortify the peace and plenty of our communities and world if we share the hope of freedom and the sanctity of all life with mutual respect.
2. Life has so much promise and there is so much to be gained from the promise in every life which can be magnified by the achievement of moral maturity.
3. None of the virtues precede common courtesy and honor for the religion, culture, heritage, civil rights and nationality or race of other persons and peoples which are to be safeguarded with honor, appreciation and understanding.
4. Spiritual knowledge is to accompany academic and civil knowledge to provide the practical basis for sound health of body, mind, and soul.
5. A global society, in the spirit of Sahome, will foster compassion, empathy, goodwill, patience, and a generosity of sharing and caring, and nurturing with gratitude. What all have contributed to the wellbeing of us all, is to be prized by us all.

OUR FULFILLMENT STATEMENT

Know that we recognize and accept the Divine Plan for our life, which is already the reality of us, it becomes active in our consciousness. We feel its power, its strength, and its dynamic urge to manifest through us into our world. It brings unity between the inner world of spirit and the outer world of form. The Divine Plan for our lives inspires, develops, and cultivates all fine tuned sympathies, joys, tastes, kindred feelings and affections of our nature. It inspires virtue, kindness, goodness, tenderness, gentleness and chastity. It develops beauty of person, form and features. It tends to health, vigor, animation and social wellbeing. It invigorates all the faculties of the physical and intellectual man. In short, it is marrow to the bone, joy to the heart, light to the eyes, music to the ears and life to the whole being.

In the presence of our kindred souls, who are fulfilling the Divine plan, we feel the light of their countenances as genial rays of sunshine. Their very atmosphere diffuses a thrill, a warm glow of pure gladness, sympathy, and delight into the heart. Mutual respect comes through them with wisdom, strength and knowledge. They shape the care of the Divine Nature. They are at one with the nature of God and His purposes.

Home is the destination of the heart. Love is the road that leads to hope. Courage is the impetus that drives us. We travel by faith. The road of love is lit by the light of good conscience which increases the intensity and momentum of faith, hope, love, and courage. The Road of love and faith reflects The Divine Nature within each of us. Through God's Divine Plan we open to all openings within The Divine Nature.

ONCE

Once we have found what is good and true and beautiful in our lives, right now... this troubled moment becomes an opportunity. Once we have found meaning within our life, we don't want to go back, we want to go forward. We want to see more and do more. Once we have experienced love and compassion we only want to share in it and share it with others forever more.

*The 12 Implementations of
the 12 Pointed Star of Sahome*

The 12 Implementations of the 12 Pointed Star of Sahome

1. Our first job: We have got to guard against evil by overcoming the brutality of extreme fanaticism by creating an anti-terrorism offensive.
2. **Overcoming** learned helplessness and learned despair that cripples ingenuity, by helping people embrace the truth of the beauty within themselves for achieving goodness. There are many sanctuaries of beauty across the world, and we need to help people fit in to belong and be incorporated into them, wherever they are found. **We need to help each of us to ask, ‘What is true for me?’** What can I do to bring my truth to benefit others? Your truth matters, you can matter. Your truth is important to be. Your truth will always feel like freedom for all of us.
3. **Overcoming** a low yield world in which some people degrade, desecrate, or demean those whom they deem unworthy, unadept, or undesirable. **Our job is empowering people.** Our job is to build a cultural confidence and competence, around optimism, cheerfulness, delight and satisfaction, so we include all of society in working for one another’s benefit.
4. **Overcoming** illiteracy and ignorance which can be reduced by expanding global communication, education, and positive validation. This will do a lot to end the chaos in the world, that conflict breeds. Pessimism sells, we must not let it have the last word, **that is our job!**
5. **Overcoming** abuse, which is surmounted by accentuating total clarity, transparency, and purity. We can be self-deflating by over pathologizing of our symptoms and not getting down to the root of causes of intolerance, mental illness, dysfunction and violence. We need transformational cooperation to confront child abuse, domestic violence, bullying and gang aggression, war and intolerance. Inspiring tolerance is our job. Transformation, by rooting out the common denominators of pathologies, begins by giving people back their dignity, by giving them back their dreams. Trauma causes trances, trauma causes spells. Dispel the abuse, loose the spell. **Inflict not! Infringe not! That is our job to do!**
6. **Overcoming** poor self-discipline by doing the fearless moral inventory. If we don’t discipline ourselves, other people are going to have to do that for us. That’s a pathetic situation to be in. We all face the over arching questions:
 - What should I discard?
 - What should I move forward with?
 - What should I reward?
 - Over what should I better manage?
 - What should I move toward in my Faith Path?

We don’t want to break stride, back slide or cause someone else to break stride with their glory, or self fulfillment. When we take on a habit, our habit will be our master. **Our job is to achieve greater self discipline!**

7. **Overcoming** ill temper by living an attitude of gratitude. Our lack of fortitude by our lack of gratitude causes ineptitude. May our wish for one another be that we, all, cherish kindness in word and deed. **This is our job!** May we set people up for honor rather than setting people off. **May we be grateful for the goodness in every life!**
8. **Overcoming** imprudence by living judiciously and using thrift and self prudence. Let us not be lax or relax our conservation of resources. To our credit, if we waste not, we likely will want not. Haste can sometimes make waste. As we strive to live with ingenuity and integrity, our moral intelligence grows which safeguards and undergirds our independence. May we overcome a ‘throw-away society.’ That is our job!
9. **Overcoming** misplaced values. We benefit by emphasizing human rights, not self-entitlement at others ill-expense. Stifling material gain, and acquisitiveness can stamp out stalwartness. People are generally in the business of making money. Too often wealth has morphed into stuff hoarding. May we share the benefits of what we have purchased. By appreciating the simple pleasure in life, smelling the roses that flower, basking in good health, and using our time wisely, we increase life’s joy. As we learn and explore, we become educated to real-world keen living so we live in harmony with nature with good judgement. Time is our ultimate currency. Discreet, judicious, wise use of our day-to-day opportunities to help and serve the greater good makes the most long-term sense. **That is our job!**
10. **Overcoming** the shackles of self-limitation, apprehension, fear, oppression, and the bondage of low self-expectation. The sentence of self-contempt is the fraud of self-diminishment and is countered by being willing to achieve our potential for doing our best, by contributing to the goodness in others. **That liberation is our job!**
11. **Overcoming** the ‘Gall of Bitterness’ from holding grudges, prejudice, mean-spiritedness, hatreds by forgiveness, fairness, and forbearance. **Forgiveness is our job!**
12. **Overcoming** haste and impatience by living the 7 markers for increasing prosperity:
 - Elevate • Innovate • Allocate • Invigorate • Initiate • Liberate • Appropriate**Creating ampleness is our job!**

Sahome wishes everyone prowess, bravery, personal superior ability, ingenuity, gallantry to master these cautions and techniques of skill and valor that can bring us usefulness and ultimate happiness. The promise is reassurance that our life really matters to all under heaven. That is our job!

*This hope forms Sahome’s ultimate promise:
That as long as Sahome flourishes widespread,
throughout the world for everyone, there will be peace on earth!*

Collective Ingenuity and Integrity

In order to reorder human life and end the ravages upon humankind; Sahome helps us think through these fundamentals:

- *We cannot lead by pessimism*
- *We cannot lead by disparaging others or mismanaging ourselves.*
- *We cannot lead by disdain or disgruntlement.*
- *We cannot lead by petulance or belligerence.*
- *We cannot lead by casting dispersions or causing dissensions.*

We can only lead by love and the homage of appreciation.

We can only lead with the sanctity of the heart.

May *We* lead by absolving, solving and resolving all the issues that confound the human family by reaching out to one another on the level of mutual love, mutual mercy and mutual honor.

As *We* live these fundamentals —

We counteract beligerence and deception by not denying ourself love.

We outgrow contemptuousness and the “entitlement of arrogance” by accountability.

We renounce provocations and vengeance by life-supporting benevolence.

We overcome godless sophistry and debauchery by the adventure of compassion.

We surmount inequities and insufficiencies by equitable justice and kindness.

We foster fairness so that fraud and foibles don’t fester to a fury that fuels feuds. It is up to us — by nurturing big heartedness and empathy.

We avoid the deaths, dreads, and dregs imbedded in any ideology of fear and false security by giving credit where credit is due and giving everyone their just due.

We release from the bondage of past indiscretions by repentance, restitution, reconciliations and resilience. Any personal regeneration comes through feeling anguish.

The practice of Sahome helps us end denigrating, deluded, deceptive behavior by thinking with all the vision, imagination and majesty that is Sahome.

We want Sahome to be allowed into every human heart . . .

Our Grand Strategy is: Sanctity of Heart!
