- *be an emissary of peace and vision

This is the practice of Sahome

Sahome

To be one in Love, Mercy and Honor

This can be accomplished when we encourage and help all to fulfill the perfect pattern which is to complete the destiny that God, our Beloved Father, has invested in every soul: to eventually become fully completed after his image and likeness. Then we delight over and share in one another's joy and accomplishments with pleasure and satisfaction, helping all to become their full-soul selves. Then we work for everyone's best outcomes and best good and benefit. Then we assist everyone to realize all of the righteous desires of the heart.

Then we live the Zeal of Zion which is:

"I supplicate to your best good and benefit.

Use me to your best good and benefit.

I am grateful for all that you are;

All that you have accomplished for goodness; and

All that we might share together in righteousness!"

This is why Sahome was created—

To be a canopy under which we could all co-exist, regardless of religious, racial, or ethnic affiliation, and feel a sense of totality, belonging, and oneness in the pursuit of all truth and righteousness. Because we have a right to digest all truth—It does not matter whether we are Muslim, Buddhist, Hindu or are from the Judeo-Christian perspective or have no set formed faith path at all... under this canopy of Sahome we can all gather together and unite in love one for another and share compassion with heart, might, mind, and strength...

Therefore

Sahome teaches and encourages us all to live the main moral organizing emphasis of life, which is = moral courtesy and moral courage, friendly honor and humility, modesty and moderation, no tyranny, full participation, and profound reverence and respect for everyone.

We thereby become one and remain one.

Jesus said: If ye are not one, ye are not mine!
