The law is no substitute for conscience!

Conceit stalls-off life's fullest solutions.

There is no substitute for conscientiousness, so that we are not impinging or impoverishing upon the heritage and hopes we need to create for our abundant future.

The Key will be to live all the graces in life as
Life's Great Bonus!

- O** stands for Order
- N** stands for Nurture to Our Needs

Living Sahome Says Yes To Life!

Says Yes... in the search for wisdom and truth, to be a pursuer!

Says Yes... to standing up against the hullaballoer, with all due candor, becoming a prime mover!

Says Yes... to being a solution doer, helpful embuer and sticktoer!

Says Yes... to be a part of the renewers and not the poopooers or the spewers!

Says Yes... to rally around the to-doers and the 'see it throughers'!

Says Yes... to giving credit where credit is due and avoiding the miscontruers!

Says Yes... to overcoming sloth and slander to being true-bluers, so we are not a shirker, but an upright honest worker and renewer!

Says Yes... to being a supporter of all good deeds, as an up builder and honorable provider and noble pursuer!

*Sahome wants everyone to design their
best life and live their best purpose!*

The Poetry of Moral Courage

Moral Courage can live within all of us whether we work in oil or gas extraction as a drill operator, as a dental hygienist, as a shipping clerk or transportation driver, as an applied technician, or an electrical engineer, as an air traffic controller or whatever our career path may become. Through our careers, moral courage can form the poetry of our passion and pursuits by our devotion, emotion, and forward motion. It becomes our tour-de-force through which we become more gracious, persevering, and more persistent which in turn prepares us to heighten our generosity, arouse our curiosity, accentuate our empathy, and school our compassion.

In the face of adversity, we become bonded, integrated, and grow to know our strengths together. Thereby, by using our resources and resourcefulness we stand as preeminent bastions of optimism to expand and share our social and emotional learning. Our habits of mind and our training of attitude create our positive outlook on life!

Moral Courage reflects the executive function of the brain so that we become prime movers.

Our values and hopes give us bounteous reasons to look forward to tomorrow; and give us life's richest benefits, that are more deeply known, seen, self-actualizing and wanted, when they connect us to our optimal self expression of moral courage. All virtues connect us to the rightful habits that lift our moral courage and integrity. Our compliance to the angels of our better nature ensures that the multiple layers of our life form the bulwark and bastion of eternal glory.

This is Sahome's wish for each and every one of us, as we strive together to realize an ample peaceful new social order, which will bring peace, harmony and help find benefits for all of humanity. May we ever join our skill, moral courage, resources, and energy to become allies in moral leadership to realize goodwill, brotherhood, and peace. Sahome is our initiative together, to get this noble effort accomplished!

*By sharing Sahome together, we wish an abundance of
moral courage to bless every life!*

Transitions

By using Sahome, there is honoring of the worth and well being of all people. We prize the unique individuality and we marvel at the wonder and majesty of potential in everyone's life. We turn our deference into preference for all people to live one's best life and to attain one's best future.

This is Sahome's Mission!

We all need encouragement to lift the tone and temperament of society to sustain peace. Sahome want us, all, to allocate some time and effort to spreading friendship and good will every week. When we stop animosity and derangement of mind and spirit we stop humiliation, aggravation, mind and spirit we stop humiliation, aggravation, desecration, demoralization, desperation, deprivation, privation, brutalization and annihilation. We don't want the fret of regret to harm the future we want to build for the coming generations; nor have it further stained with the aftermath of war and violence. We want to cede to those of our posterity the grand approbation of love, peace, and good will. We want to increase all people's willful devotion to high striving and to moral maturity.

This is Sahome's grand intent. Please refer to Sahome.org for a connection or hope and about being a leader in this cause.

For further information and enrichment, to achieve this objective and to create your own Sahome outreach groups, go to Sahome.org.

Everything, creating real value for the human family, should be honored, and should not be lost. This is a process of sweet restoration and noble reciprocity. We want to be acruers and helpful doers so that we will reflect well upon others.

Love is the kindness that sweeps away suffering. Life is about sequencing. As we sequence one good gesture and one good intention after another, we can turn tragedy into triumph, futility into productive agility, stigmatization into a positive affirmation and transformation away from atrocities and animosities into helpful dexterities to form compassionate realities. Thereby we can calm much that worries and concerns us all, because we all have many cares, worries and concerns.

All compassionate realities can transpose our truth and beauty into something noble and great that is not perishable. That is how Sahome wishes to represent us to the best in all faiths and faith paths.

It is Sahome's worthy goal to build peace, harmony, unity, and cooperation to counter limitation by the pursuit of moral maturity. Thereby, with moral courage, we will face limitation in a tenuous tentative tumultuous world, so we better foster and strengthen goodness and honorable self governance that, rung by rung, we can rise above limitation to share emancipation.

*We are ascension beings.
"I lift thee and thee lift me and we ascend together."*
