

## Belonging

### Verse 1

Here and now, we bring ourselves together  
to a place where joyful feelings can be shared with kindness.  
Wishing for the friendship we desire,  
There is home where there are open arms.  
Let us all stand tall, to answer every call,  
To cherish one and all, in one truth 'cause...

### Chorus

Belonging is our longing.  
Together we will find peace on earth.  
It's so plain to see...  
with acceptance, change will follow.  
And longing is belonging.  
'cause together we will stand up strong.  
It is love that brings us here, to belong.

### Verse 2

Together now, we'll have our best tomorrows,  
Let's share each passing moment without any sorrows.  
What is more to life than friends and freedom?  
We're at home where there are open arms.  
So we stand up tall, including each and all.  
To cherish one and all, in one truth 'cause...

## **[MONOLOGUE]**

*Together we have our best tomorrows.*

*As we honor everyone's worth, we minimize sorrows.*

*By sharing our feelings of goodwill, we stand for one another.*

*We stand tall for all!*

*What is more to life than friends and freedom?*

*And to cherish one another as our own worth?*

*No harsh judgement, only generous sentiment.*

*To build loving, helpful, and respectful contentment.*

## **Verse 3**

We benefit, when we stand as one together.

Let's meet our needs with good deeds that build true belonging.

Wishing for the future we desire,

We can hope and dream to reach it all.

Let us all stand tall, to answer every call,

To cherish one and all, in one truth 'cause...

## **Verse 4**

We lift our hearts caring for the lives around us.

Somehow we'll find a way to fill each life with purpose.

Kindness brings big benefits to others,

to honor all with love and open arms.

So we stand up tall, including each and all.

To cherish one and all, in one truth 'cause...
